

1. Title: Simpson
2. Sources:
 - (a) Creator: J. Savoy
 - (b) Date: March, 2022
3. Relevant Information:

--- This is a dataset for exercises using R
Create for a simple dataset for manipulating the data
and applying regression (simple)
4. Number of Instances: 2000
5. Number of Attributes: 3, 2 binary (1/2), 1 factor (treatment)
6. Attribute Information:
 1. Size tumor size (1 = small, 2 = large)
 2. Treatment drugs = soft treatment, surgery = 2nd treatment
 3. Result 1 = cured, 2 = fail
7. Missing Attribute Values: None
